

# COSHH Risk Assessment

## CONTRACT GLASS & STAINLESS STEEL CLEANER (5 Litre)

Product Code: BA800-5

PROCESS STAGE	POTENTIAL RISK	CONTROL MEASURES	ACTION REQUIRED
<b>DELIVERY</b>			
Packaged ready mixed in 6 x 750ml polythene flasks with trigger spray. Delivered in single containers if required.	Risk of spillage if the container is dropped. Risk of injury to user if dropped.	Trained employees should handle only single containers at any given time. Take care not to drop the containers. Ensure that the cap is secure at all times.	Transfer containers to store immediately following delivery. Do not leave containers in areas where users of the building will come into contact with them.
<b>STORAGE</b>			
Containers must be stored upright in a cool, dry storage area. Product must be kept stored in its original sealed container.	Minimal risk of spillage if triggers are firmly in place. Triggers are not child proof.	Keep containers in secure storage areas. Restrict access to storage areas to authorised personnel.	Use oldest stock first. Make regular checks to ensure that storage area is clean, tidy and cool. Make regular checks to ensure that containers are not split or blown.
<b>USAGE</b>			
Product is dispensed in a spray using an adjustable trigger spray. Product is applied directly onto the surface to be cleaned from a distance of 20-30cm. Product can be applied directly onto a cleaning cloth for some tasks.	Risk of eye contact. Risk of skin contact. Risk of ingestion. Risk of spillage onto floor and into drainage system.	Ensure that the container is returned to store when not in use. Always read the manufacturer's instructions prior to use.	Provide employees with PPE as follows: - Protective gloves When mixing solutions, ensure that operatives add product to water. Ensure that operatives are aware of location of First Aid facilities and personnel.
<b>DISPOSAL</b>			
Empty containers must be rinsed thoroughly and disposed of as normal waste. Residual stocks may be disposed of into a foul sewer (sluice) using plenty of water. Recycle all containers wherever facilities are available.	Small risk of skin or eye contact. Small risk of inhalation and ingestion.	Ensure that the container is exhausted before disposal. Ensure that the product is not disposed of via a rainwater sewer (i.e. drain outside the building).	Ensure that all operatives wear personal protective equipment at all times.
